Understanding Arizona's Education System

This training was developed by the Arizona Department of Health Services/Division of Behavioral Health Services (ADHS/DBHS) in collaboration with the Arizona Department of Education (ADE). Under the auspices of the Arizona Children’s Executive Committee (ACEC), the Training Subcommittee was tasked with developing a systematic process to ensure that Child and Family Teams (CFTs) were collaborating with education for children with behavioral health needs in a meaningful way, statewide. As a result, the ACEC Training Subcommittee designed this training for the purpose of educating the behavioral health system about educational processes and the role of educators on CFTs.

Where: NARBHA; 1300 S Yale Street, Flagstaff, AZ 86001
When: Friday April 3rd, 2015
