

## **Thanks for your support**

As the Verde Valley Guidance Clinic celebrates 45 years of service to the community, we want to thank you for the support we have enjoyed throughout the years. From its beginnings in 1965 in a borrowed room at the old Marcus J. Lawrence Hospital to its current state-of-the-art campus in Cottonwood and its offices in Sedona and Camp Verde, the not-for-profit Verde Valley Guidance Clinic has grown with the community and kept its commitment to provide the best possible care for our consumers. The behavioral health professionals at Verde Valley Guidance Clinic have helped thousands of families and individuals improve their lives through recovery from substance abuse disorders and chemical dependency. Persons with serious mental illness have benefitted from the Clinic's recovery-oriented treatment programs, and children with emotional or behavioral problems have been helped to achieve their goals.

Throughout these many years, the Verde Valley Guidance Clinic has depended on the support of a caring community and the skill of our many behavioral health professionals who have made their mark on the community by making a difference in the lives of those we serve.

While the future is uncertain, the volunteer Board of Directors and the management and staff of the Verde Valley Guidance Clinic are committed to a continued and renewed effort on the part of our consumers and stakeholders.

If you value the Verde Valley Guidance Clinic as a resource in our community, please consider contacting our legislators at the State capitol in support of adequate funding for substance abuse treatment, children's programs and other mental health programs. While the Verde Valley Guidance Clinic remains a strong and healthy organization, the serious state budget problems may result in the need to reach out to the community for assistance in a variety of ways.

For 45 years, the Verde Valley Guidance Clinic has been a good investment in the Sedona-Verde Valley community, and it still is.

Thank you.
