

Northern Arizona Regional Behavioral Health Authority

Managing behavioral healthcare with a conscience.

Out of the Box Award Nomination

From Chandra Conwell

CFT facilitator Bridget Butts at WYGC

Bridget facilitates a very large CFT for a child with many complex needs.

Although each team member has his/her own role and purpose, the team is cohesive and all members work well together. At a recent CFT meeting, there were some pressing issues for this child. As the team addressed the needs, members could have said “It’s not my job. It’s not my role.” But instead, they all pitched in and contributed to what was needed to get to the point of really meeting the child’s needs.

Bridget’s leadership helps make this happen.
