

Crisis Intervention Services (Mobile, Community Based)

Crisis intervention services provided by a mobile team or individual who travels to the place where the person is experiencing the crisis (e.g., person's place of residence, emergency room, jail, community setting) to:

- Stabilize acute psychiatric or behavioral symptoms;
- Evaluate treatment needs; and
- Develop plans to meet the needs of the persons served.

Depending on the situation, the person may be transported to a more appropriate facility for further care (e.g., a crisis services center).
