Home Care Training to Home Care Client (HCTC) Provider

Services provided by a behavioral health therapeutic home to a person residing in his/her home in order to implement the in-home portion of the person's service plan. HCTC services assist and support a person in achieving his/her service plan goals and objectives and also helps the person remain in the community setting, thereby avoiding residential, inpatient or institutional care. Services include supervision and the provision of behavioral health support services including personal care, psychosocial rehabilitation, skills training and development, transportation of the person when necessary to activities such as therapy and visitations and/or the participation in treatment and discharge planning.

Special provisions for providers of HCTC services to children:
- Must be a DES licensed professional foster care home (A.A.C. R6-5-5850); or
- Be licensed by federally recognized Indian Tribes that attest to CMS (via AHCCCS) that they meet equivalent requirements.

Special provisions for providers of HCTC services to adults:
- Must be an OBHL licensed Behavioral Health Therapeutic Home (A.A.C. R9-20-1501 et seq.); or
- Be licensed by federally recognized Indian Tribes that attest to CMS (via AHCCCS) that they meet equivalent requirements.
